PROFESSIONAL EXPERIENCE

Lead Data Scientist

2021 - Present

Data Insights Corp

- Developed a churn prediction model with 92% accuracy, reducing customer attrition by 15%.
- Implemented an NLP-based sentiment analysis engine for customer feedback.
- Deployed ML models using SageMaker and enforced CI/CD pipelines for models.

EDUCATION

M.S. in Statistics

2021

MIT

B.A. in Mathematics

2019

UC Berkeley

TECHNICAL SKILLS

Python, R, SQL, Scikit-Learn, TensorFlow, PyTorch, Tableau, Apache Spark

KEY PROJECTS

Stock Market Predictor

Used LSTM neural networks to forecast stock prices with high precision.

Technologies: Python, Keras, Pandas, Yahoo Finance API
